Channel disable for Bragg adjust.
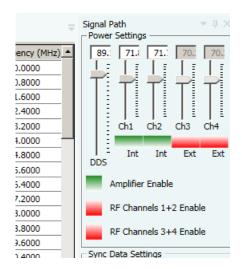

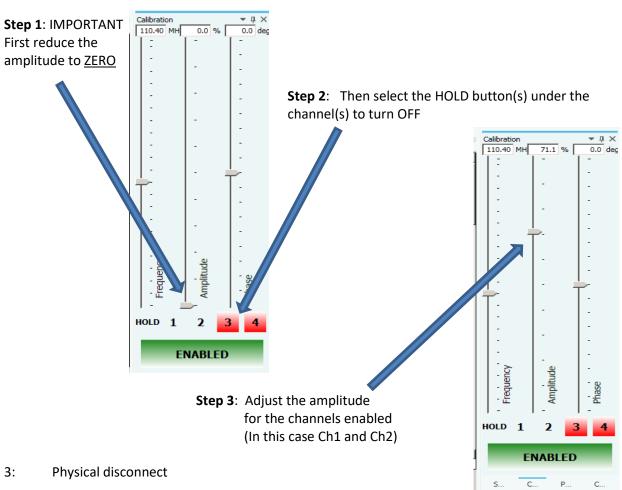

Several methods.

1:      From **Signal Path** menu
If no External modulation signal is connected to J7,
select **Int/Ext** button to turn off channel On/Off
RED = OFF

2:      From **Calibration** menu

Step 1: IMPORTANT
First reduce the
amplitude to ZERO

Step 2:   Then select the HOLD button(s) under the
channel(s) to turn OFF

Step 3: Adjust the amplitude
      for the channels enabled
      (In this case Ch1 and Ch2)

3:      Physical disconnect

Disconnect the coax cables from the IMS4 output(s); J1, J2, J3 and/or J4
